ch08 Instructions

NOTE: Unlike the previous chapters, I have not added any extra fix or coding exercises. There are plenty of exercises in the Try it Yourself section.

You may create the original code using any method you prefer. Save the file using the naming conventions (below).

Complete the following exercises

tiy (Try it Yourself)

Store all of the **tiy** exercises in your **tiy** folder for this chapter.

Complete the following exercises. Start the name of each exercises with **tiy**. For instance, the name of the first exercises would be **tiy8.1.py**.

- 8.1
- 8.2
- 8.5
- 8.7
- 8.8
- 8.9
- 8.10
- 8.11
- 8.12 - Code provided in Moodle. We will go over it in class. Do not submit this exercise.
- 8.14
- 8.15
- 8.17

fix

There are no fix files for this chapter.

code

There are no code files for this chapter.

Submit your work

- Follow the instructions in the Tips and Tools section on how to compress "zip" your files.
- Zip up all your work.
- Name your zipped file **yourlastnameFirstName-ch08.zip**
- Submit the zipped file in Moodle.
